

BIT LEADER. NEVER FOLLOW.

GEINXURN | BITMAN

Who are we? What do we do?

BITAMAN is an integrated manufacturer and R&D-driven brand dedicated to providing professional solutions and premium tooling products for screwdriver users worldwide. Leveraging advanced engineering and stringent quality control, we deliver exceptional durability and performance that redefine industry standards.

Product Excellence

Our screwdriver bits, precision screwdrivers, extension bars, and modular tool sets far exceed market standards in quality and longevity. Rigorously tested, these products offer a lifespan 4-10 times longer than those of leading global brands, yet are priced at merely 50%, 33%, or even lower price points. This unparalleled value proposition ensures cost efficiency without compromising reliability, making BITAMAN the optimal choice for both high-frequency industrial use and budget-conscious applications.

Portfolio Segmentation

To address diverse user needs, our product lines are strategically categorized into three tiers:

GENERAL: Engineered for DIY enthusiasts and casual home maintenance.

PRO: Tailored for professional tradespeople, including electricians, plumbers, carpenters, and general contractors, offering enhanced durability for daily demanding tasks.

ULTRA: Designed for heavy-duty industrial assembly, maintenance, and precision repair in sectors such as machinery manufacturing, appliances, and consumer electronics.

Global Collaboration

BITAMAN is committed to empowering tool users across residential, commercial, and industrial domains through innovation and accessibility. We anticipate collaborating with partners across global markets to establish long-term, mutually beneficial partnerships that drive operational efficiency and sustainable growth.

BITAMAN — Where Engineering Precision Meets Unrivaled Value.

BITMAN

Designed for professional-tier markets, our tooling series features three precision-engineered categories: The GENERAL Series delivers affordable consumer-grade solutions with quality parity to global top-tier brands; the PRO Series offers professional-grade durability with 4-6X superior impact resistance and wear resilience compared to industry leaders; while the ULTRA Series redefines industrial-grade excellence, enabling a single bit to complete an entire home renovation project backed by revolutionary 20X+ wear resistance – establishing unmatched longevity benchmarks for extreme-duty construction applications.

X50 POWER IMPACT BIT SERIES

- For PHILLIPS, POZIDRIV, TORX, HEX, SECURITY TORX, SQUARE, SLOTTED screws
- Everyday tool for all types of industry and trade screw applications, can be used manually and with Impact Driver.
- Compatible external hexagon in accordance with DIN ISO 1173, compatible with socket F 6.3
- Precise, true-to-size tips, optimal fit in the screw heads
- Durability and hardness are optimally balanced thus ensuring an extremely long service life
- Durable, special S2 steel, X50 Power than Standard Bits

DIAMOND TIP BIT SERIES

The Diamond bits are ideal for serial screw connections and provide for effortless working. Made of S2 steel. The torsion zone of the bits provides for over-average tool life also with most extreme requirements.

The diamond coating provides for best torque transmission and reduces the can-out effect during tightening. 1/4" C 6.3 shank.

FIXEDGE BIT SERIES

Designed for household users, mechanical maintenance, electronics repair, and appliance servicing, the newly launched FIXEDGE Pro Series excels in deep-hole operations with its premium-grade zinc phosphate coating that maintains the original metallic appearance of steel while delivering exceptional rust resistance. Available in a comprehensive range of specifications and an extensive selection of lengths, this professional-grade toolset features complete dimensional coverage to meet rigorous technical requirements, establishing itself as an essential toolkit for dedicated enthusiasts and precision engineering professionals seeking industrial-grade durability and versatile application capabilities.

GEINXURN

Professional-Grade Fastening and Locking Tools for Global Digital Commerce

GEINXURN is an engineered solutions brand specializing in precision fastening and locking tools, designed exclusively for professional applications in the global digital marketplace. Our industrial-grade tooling systems are available through authorized e-commerce channels including:

Engineered for technicians, maintenance specialists, and manufacturing professionals seeking mission-critical torque accuracy and ergonomic performance.

BITMAN

Professional-Grade Fastening and Locking Tools for Global Offline Markets

BITMAN is a precision-engineered solutions brand dedicated to professional contractors, renovation specialists, and service professionals requiring industrial-strength durability and torque-critical performance. Designed for commercial construction, maintenance, and industrial applications, our tools are available through authorized distributors and hardware retailers within your local market.

Built for tradespeople, contractors, and field technicians
 Engineered for heavy-duty workflows and ergonomic precision
 Certified for compliance with global industrial standards
 Locate your nearest authorized seller or inquire through regional partners for tailored purchasing support.
